COULDN'T GET THEIR MONEY

BANKS MUST BE NOTIFIED OF WITHDRAWALS

St. Louis Financial Institutions Continue to be Besieged by Depositors—Confidence Being Restored.

St. Louis, Oct. 28.—Long before the doors of the Mississippi Valley, Lincoln, Mercantile and Missouri Trust companies opened to day there were long lines of depositors assembled awaiting beginning of the day's business. Small groups stood before the savings institutions when the doors opened. The most anxious depositors were working people whose savings were not heavy. Owing to action taken last night by officials of the trust companies requiring thirty to sixty days' notice of intention to withdraw funds, depositors were not able to get any money. The trust companies have also decided not to pay certificates of deposit before maturity.

At various institutions named officials stated to the Associated Press current accounts were being received and paid out as usual. Early crowds which thronged the doors and fought for a place in line soon thinned out, many depositors taking their blank notices of withdrawal home. Officers of different institutions made reassuring speeches to depositors before their doors and this helped send others away.

Arrivals of boxes of gold and silver in express wagons guarded by armed officers seemed to restore a degree of confidence in the crowd before the Mercantile Trust company building.

President Walsh of the Mississippi Trust company stated he believed the excitement was about over.

This afternoon the unusual crowds at different trust companies had dwindled away. There were only a few depositors withdrawing deposits and many persons who had withdrawn money redeposited it, and in some instances new savings accounts were opened.

The statement of President Julius S. Walsh, of the Mississippi Valley Trust company, whose sentiments are echoed in interviews given the Associated Press by other trust company officials of St. Louis, that "the situation is thoroughly in hand, excitement subsided and from this on we expect business will be conducted in the usual orderly manner," expresses the opinion that seems general to night after the unwonted financial conditions which prevailed here during parts of yesterday and to day. Officers of all trust companies state voluntary offers of help were received from financial institutions east and west, but all were declined for the reason there is sufficient cash here with which to handle business. Offers of assistance helped to strengthen the situation and restore confidence.

DEMANDS FOR CASH.
New York, Oct. 28.—St. Louis continues to make demands on this center for cash. The sum of \$300,000 was sent by telegraphic transfer from the subtreasury to day direct. Shipment of about the same amount was made by local banks last night. Chicago and New Orleans drew moderately on the subtreasury to day for "crop" money.

Up to 2:30 this afternoon there had been \$2,250,000 transferred to St. Louis to day.

CURTAIN PRODUCTION.

Pottsville, Pa., Oct. 28.—An order to suspend all forty-four collieries and washeries of the Philadelphia & Reading Coal and Iron company for one week for the purpose of curtailing production of coal went into effect to day. Crews, telegraph operators and others employed in the work of transportation of coal on the Reading railway to market will also be rendered idle during the suspension period. Upward of 30,000 employees are affected.

HAD NARROW ESCAPE

An Attempt Made to Assassinate a Prince—Was Stabbed Three Times.

Tiflis, Russian Transcaucasia, Oct. 28.—Prince Galatzen, governor general of Caucasasia, had a narrow escape from assassination to day on the outskirts of town. Three natives stabbed the governor general twice. They fled, but were subsequently shot down by Cossacks. The prince was driving with his wife when the would-be assassins rushed upon the carriage, daggers in hand. After his injuries had been dressed the prince attended a reception given by citizens of Tiflis. The outrage produced great indignation, the governor general having become popular on account of his interest in the welfare of the inhabitants. Dispatches from Transcaucasia within the last month show considerable unrest at Tiflis owing to transfer of Armenian church property to the Russian government under the decree of June 25. Demonstrations have been reported at various points, in which quite a number of lives were lost.

PLEADED GUILTY

Springfield, Oct. 28.—W. H. Lowe, postmaster at Gossett, pleaded guilty this afternoon to charges of padding his cancellation stamps in order to increase his remuneration and with using stamps for payment of merchandise for the same object. He was fined \$20 and costs on each charge, which he paid. He sent large amounts of stamps to a Chicago mail order house in payment for goods which he purchased and reported these stamps in his cancellation reports as stamps cancelled.

ASK FOR PROTECTION.

Bilbao, Spain, Oct. 28.—As a result of strike situations foreign consuls have demanded from military authorities protection for ships of their nationalities now in port. Serious fighting has occurred in the streets between troops and strikers. Many persons were wounded.

During the fighting which took place in the streets this afternoon five strikers were killed and a large number wounded. Troops are guarding banks and public buildings and occupying strategic positions throughout the city in order to prevent massing of strikers.

WILL FORM CABINET.

Rome, Oct. 28.—Signor Giolitti to day formally accepted the task given him by King Victor Emmanuel of forming a new cabinet. Indications are this cabinet will, for the first time in the history of the new kingdom of Italy, bring the radicals into power. The only minister to be taken from the conservatives seems now to be Signor Luzzatti, who probably will get the finance portfolio.

IOWA CAMPAIGN.

Marshalltown, Iowa, Oct. 28.—The great political demonstration so far in the Iowa campaign was held here to day. The speakers were M. D. LAND FRAUD INVESTIGATION

MEMBERS OF SENATE MAY BE IMPLICATED.

Intimation to that Effect by Secretary Hitchcock—Almost Ready to Make Report—Washington News.

Washington, Oct. 28.—Secretary Hitchcock to day said investigation into land frauds on the Pacific coast was practically completed. He hoped to present a report on them to the department of justice during the present week. He said the report would not be made public at present, as that would defeat the ends of justice, but confirmed the generally current rumors that there had been extensive efforts to defraud the public. He said the frauds had been greatly exaggerated, and while they would involve some government officials, intimated that members of the senate were compromised in the scandal.

Washington, Oct. 28.—President Roosevelt will issue his Thanksgiving day proclamation Saturday next, Oct. 31. He will designate Thursday, Nov. 26, as a day of thanksgiving.

Estimates of congressional appropriations needed for the District of Columbia government for the next fiscal year aggregate \$12,853,825. The total for the present fiscal year was \$8,452,896.

Advices received at the state department from unofficial sources indicate there has been a change in sentiment of the Colombian senate respecting the Panama canal and that there is a considerable increase of strength of the element willing to make terms with the United States. Agents of the state department have found it difficult to make plain the fact even to Colombians that the Hay-Herran canal treaty is absolutely and finally dead and that no act of the Colombian senate can resurrect it. If there is to be anything done in the direction of a Panama canal under United States control it therefore must be the result of entirely new negotiations and none such have been instituted.

President Roosevelt to day received about sixty members of the Wisconsin Press association and their accompanying ladies in the cabinet room of the executive offices. After the party had assembled the president expressed the pleasure the call gave him and congratulated the members on the work they were doing. The president was cheered heartily. A party of former students of the University of Wisconsin giving the college yell.

The general convention of the Universalist church adjourned to day. The main features of to day's session were the praise meeting led by Rev. Mr. Newton, of Illinois, and addresses on various questions by northern and southern delegates. The missionary council of the Protestant Episcopal church to day adopted a resolution condemning Macedonian atrocities. The proposed changes in the missionary canon of the church were discussed, but no final action was taken.

The commissioner of the general land office to day directed withdrawal from entry of 20,000 acres of public land in Seattle, Wash., land district, to be included in the Olympia forest reserve.

WESLEYAN METHODISTS.

Grand Rapids, Mich., Oct. 28.—The general conference of the Wesleyan Methodist church of America to day appointed a committee to confer with a similar committee from the Free Methodist church on the proposed merger and to report at the next meeting. Resolutions were adopted commending President Roosevelt's stand in the Miller case and denouncing the possibility of seating a polygamist in the United States senate.

EXPRESSED SURPRISE.

Washington, Oct. 28.—Japanese Minister Takahira expressed great surprise at the statement in General MacArthur's telegram of Dec. 28, 1900, published to day, that an incident had been discovered of dealings between an official of the Japanese consulate at Manila and the insurgent leader Trias. Takahira said it was the first intimation of such an occurrence that has reached him. He considers it possible MacArthur's information may be incorrect and declared the Japanese government certainly had nothing to do with the affair if it really did occur.

ELECTRIC CANAL TOWING.

Schenectady, N. Y., Oct. 28.—A test of a new electric system of canal towing, commonly known as the "electric mile," was made on the Erie canal here to day. BUTTE SHUT DOWN

Heinze will Not Consider Any Proposition Coming From Lawson.

Butte, Mont., Oct. 28.—F. Augustus Heinze, in an interview regarding the offer of Thomas Lawson looking to settlement of differences between Heinze and the Amalgamated Copper company, in which Lawson proposed the price offered by Lawson for Heinze's Butte holdings be submitted to arbitration, says he (Heinze) would not consider seriously any communication coming from Lawson.

It is expected all members of the mediation committee will be here to morning and an attempt will be made at once to settle the differences between Heinze and the Amalgamated company. The Silver Bow labor and trades assembly has addressed a letter to Governor Toole, setting forth the present situation and arguing for a special session of the legislature that remedial legislation may be passed.

ENGLISH ANARCHIST

New York, Oct. 28.—Judge Lacombe in the United States circuit court to day listened to arguments in the habeas corpus proceedings on behalf of John Turner, the English anarchist whose deportation has been ordered by the government. The defendant's counsel claimed that anarchy was not a crime, but a religion, and that the deportation of his client was prohibited by article one of the bill of rights. The government will submit a brief Friday. Meanwhile Turner is remanded without bail.

WARRANT FOR MRS. BOSWELL.

Columbus, Ohio, Oct. 28.—A warrant was issued for the arrest of Mrs. Samuel Boswell, of this city, on the charge of using the mails to defraud, but she was too ill to be taken into custody. It is alleged she wrote letters to Z. L. White, a merchant, demanding \$300 on threat of making certain exposures, and to Senator Hanna demanding \$500. It is said she admits sending the letters, that she says she knows nothing derogatory to either man and her only object was to obtain money. She is 55 years old and the wife of a traveling man.

RIVER IMPROVEMENT.

New Orleans, Oct. 28.—At to day's session of the levee convention Judge Robert E. Taylor, of Port Wey, Ind., a member of the Mississippi river commission, in the course of an address on "Opening and Development of the Levee System," created considerable stir by saying he felt it his duty as a delegate to oppose the proposition that the federal government should take over control of the levees and complete them. He didn't believe the proposition could be carried out. He said there should continue to be co-operation between federal, state, district and county governments. Taylor adjudged that what was wanted was a larger appropriation along the old line of co-operation.

DRIVERS ON STRIKE.

St. Louis, Oct. 28.—Drivers of all St. Louis express companies to the number of 400 went on strike to day because demands of the Pacific Express company's employees for a wage increase of 10 per cent has not been granted. Officials of express companies say they have arranged to fill the strikers' places at once and no delay in delivery and transportation of goods is anticipated.

TWO MORE NEW RECORDS

WERE MADE AT MEMPHIS WEDNESDAY.

Lon Dillon Trote Mile to Wagon in Two Minutes The Monk and Equity Lower Record for Trotting to Pole.

Memphis, Tenn., Oct. 28.—The races closed this afternoon with the breaking of two world's trotting records. Lou Dillon went a mile to wagon in two minutes flat, cutting a second and three-quarters from the previous record made by herself, and The Monk and Equity lowered the world's trotting record of 2:09 for a mile to pole to 2:08.

The performance of Lou Dillon in the mile trial to wagon was even more spectacular than the trial against time last Saturday, when she negotiated a mile in 1:58. The start was made on the first trial and the first quarter was reached in 34 seconds, half in 59, three-quarters in 1:23, and the mile in exactly 2:00. Billings, her owner, and Lon Dillon were given an ovation when they drew up before the grand stand after a performance that was enthusiastic enough to satisfy the most critical.

The Monk and Equity, driven by Billings, went a mile in easy fashion to pole in 2:05 with a single runner. Neither of the trotters gave a hint of breaking during the trial, but after they had passed the mile The Monk found the strain too severe and broke into a gallop without influencing his team mate. The first quarter was made in 33; half, 1:04; three-quarters, 1:36; mile in 2:08. Summaries:

The brothers of the girl are being held at the police station with Eckstein as witnesses in the case. Officers searching the Bechtel home to day found blood stains on the floor and walls and a blood-stained lathing hammer in the garret. RUSSIAN MINISTER.

Paris, Oct. 28.—Count Lansdorff, Russian foreign minister, arrived here to day, accompanied by a numerous suite. M. Delcasse, French minister for foreign affairs, welcomed the count at the railroad station. The visit of Lansdorff absorbed attention of public and press, who attribute to it even more important political significance than to the visits of King Edward and King Victor Emmanuel to Paris. While it is generally believed the foreign ministers will discuss the eastern and far eastern questions there is a strong feeling prevalent among leading officials the main result of the Russian minister will be strengthening the bonds of the Franco-Russian alliance.

A French official in close touch with M. Delcasse informed the Associated Press to night that as the result of a conference to day between M. Delcasse and Count Lansdorff, France recognized paramount interests of Russia and Austria in the Balkans to representatives of those countries alone supervising execution of reforms in Macedonia. France thus supports the attitude of Russia in carrying out of these reforms. The situation in the far east also was discussed with the result that the attitude of France will not be modified by possibility of war between Russia and Japan.

TALK OF INDEPENDENCE

DECLARATION MADE BY A HALIFAX PAPER

Claims the Existing Strained Relations Between Canada and Great Britain Cannot Exist Much Longer.

Halifax, N. S., Oct. 28.—The declaration that the existing relations between Canada and Great Britain cannot exist much longer was made to day by the Halifax Chronicle, leading newspaper supported by the maritime provinces for the liberal party. In the course of an unusually outspoken editorial on the recent Alaskan boundary decision the Chronicle expresses what it claims to be the unanimous dissatisfaction of Canadians at the action of the British government in the matter.

The Chronicle declares there are now only two courses open for Canada—complete legislative independence within the empire, acknowledging sovereignty of the king of England alone, or status of an independent nation. The paper says there is much to commend the latter step in particular, because it would free Canada from danger of being embroiled with the United States on account of its European connection, and at the same time would secure for the dominion the benefit of protection of the Monroe doctrine.

A NEW PLAY COMING.

A genuine tramp, a detective, a
life insurance agent, a wealthy rogue
and deceitful husband, a persecuted
wife and mother, a beautiful daugh-
ter and a village ne'er-do-well, are
the principal characters which go to
make up Manager U. D. Newell's
comedy sensation, "An American
Hobo," which will be presented at
the Grand Saturday, Oct. 31; matinee
and night. The play is from the
pen of Mr. E. D. Kipper, a play-
wright who is responsible for more
tender, touching, pathetic, heart-in-
teresting plays than any other author
now before the public. His "Peace-
ful Valley" and "A Poor Relation"
had made the late Sol Smith Russell
famous and a millionaire. In this
work he promises to surpass his other
efforts and give to us a piece that for
stirring situations, startling climaxes,
as well as heart touching interest can-
not be surpassed. Manager Newell
has cast "An American Hobo" with
care, selecting only artists eminently
fitted for their respective roles.
Prices: Matinee, 10 and 25c; night,
10c, 20c, 30 and 50c.

A NOTABLE RENUION.

Mrs. L. M. Caldwell, of this city,
Mrs. Joseph Green, of Tallula, and
Mrs. Wm. Robertson, of Tallula,
have returned from a family reunion
at Sparta, Tenn. It was held at the
old family home and there were gath-
ered together Oct. 20, four sisters
and two brothers who had not all
met since the civil war. The ladies
mentioned above are three of the
sisters and the fourth, Mrs. Lizzie
Williams, lives at the old home. The
brothers were Messrs. Slade and Bird
Murray, of Nashville, and it is need-
less to add that all had a very en-
joyable time. Mrs. Robertson stayed
over in St. Louis to visit a daugh-
ter who lives there, but will be home
soon. The reunion was one of the
most enjoyable of occasions inasmuch
as the family had not been together
for so long a time.

LARGE AUDIENCE FOR HAN-
FORD.

This city has always evinced a de-
sire to patronize the best of theatri-
cal performances. A large audience,
therefore, is confidently expected to
witness Charles B. Hanford's presen-
tation of Richard III, which will be
given at the Grand to night. Many
flattering reports of this revival have
arrived from other places, where the
play has been produced this season.
Mr. Hanford, already a sterling fa-
vorite here, will no doubt add to his
popularity by his performance of the
swashbuckling Petruccio, who resorted
to such extreme methods to tame
his shrewish wife.

ing girls accustomed to Singer

Republican County Ticket.

For Commissioner.
LUTHER A. BARR, of Arcadia.

Whenever the Republicans have given the people of Morgan county a commissioner he has done well by the best interests of all concerned. The office is yet important and realizing that fact the Republicans have placed in nomination Luther A. Barr, a man abundantly qualified for the position and one whom the voters should elect. Anybody will be the trouble should he be defeated; let us all do our duty and see that he is elected next Tuesday.

Every Republican voter is earnestly requested to remember his duty at the polls next Tuesday and turn out and vote for L. A. Barr for county commissioner. A long pull, a strong pull and a pull all together will accomplish much as it has in the past. No one should refrain for there are great interests at stake.

Take no chances next Tuesday but go to the polls early and cast your vote for Luther A. Barr for county commissioner. He is the man to elect for he is wise, careful, conservative without being stingy; economical without being stingy and in all ways he is well qualified for the important position to which he aspires and for which the Republican party has nominated him.

All that is needed is plenty of energy and determination and Luther A. Barr will be elected county commissioner next Tuesday. He is the man who is well spoken of by his neighbors and all who know him best and that is the best recommendation a man can have. He will fill the bill admirably and should be elected.

Morgan county is one of the finest spots on the face of the earth and its people are among the best. Sometimes a majority of them make mistakes, but let us hope they will not do it this year. We are to elect a county commissioner next Tuesday and the Republicans have nominated Luther A. Barr, a man abundantly qualified for the position; he is honest, kind, fair minded, progressive, possessed of good ability and in fact is the man whom the people should remember at the polls. Let the voters be on hand and see to it that there is a general turn out of the Republican forces.

GOV. YATES' ITINERARY.

Governor Yates last night gave out the itinerary of his second campaigning trip. It is as follows:

Tuesday, Nov. 3—Carlinville, Alton, Winchester.
Wednesday—Beardstown, Galesburg.
Thursday—Rock Island, Clinton, Sterling.
Friday—Sterling, Dixon, DeKalb.
Saturday—Chicago.

NO WAGE REDUCTION.

New York, Oct. 28.—Emphatic denial is made here by representatives of several important western roads to widely circulated rumors that no concerted effort was to be made by the western roads to reduce wages. The opinion was generally expressed that no such plan was under consideration, and in some quarters that such a move would not be feasible. Reductions in expenses are being made by western roads in common with those in other parts of the country, but this is being accomplished in the main by reduction in shop expenses and in construction and improvement work.

SUPREME COURT BUSY.

One hundred and seventeen opinions were Tuesday filed by the supreme court before it adjourned in course. It took on call during the October session 160 cases and 104 cases were left on the advisement docket. It now has under consideration 264 cases. This condition of the docket is due to the fact that so many of the justices have been sick during the last four years. Justice Phillips wrote no opinions during the last year of his life. Justice Ricks was unable to do any work for a long time. Other members of the court in this time have been incapacitated for active duties and as a result cases have piled up. The docket, however, is not in a bad condition even with this number of cases ahead. In a very short time the judges can dispose of all the cases provided none of them is cut off by sickness. All members of the bench are now in good health.

WASHINGTON LETTER

(Special Correspondence.)
One of the men henceforth to be prominently "in the public eye" is James A. Hemenway of Indiana, who succeeds to Uncle Joe Cannon's place as guardian of the official purse strings, or chairman of the house committee on appropriations. After all, this is the great committee of the house. To the ways and means committee there are more eclat and temporary prominence, but year in and year out the men who draw the great supply bills run the government of the United States. And the house still exercises an influence on these measures. The senate is more liberal by tradition in voting money, and if any cheeseparing is to be done it must be in the house under the lead of this committee. Its great chairmen of the past have been among the best known of our lawmakers. Now a new man steps before the American public and makes his bow. Fortunately, his record has thus far shown him possessed of more than ordinary force and strength.

Portraits of Former Speakers.
Oil or crayon portraits of the former speakers of the house of representatives will be placed on the walls of the house lobby at the capitol before the opening of congress in November. There will be a long line of them, ranging from the painting of P. A. Muhlenberg of Pennsylvania to that of David B. Henderson of Iowa. But one speaker in all the long line, Nathaniel Mason of North Carolina, speaker of the Seventh, Eighth and Ninth congresses, lacks a place in this notable gallery, it having been found impossible to find a likeness of him. One or two speakers pro tempore are also missing from the list.
The majority of these pictures adorned the walls of the lobby some years ago, but their frames became cracked and soiled, while some of the paintings were fading, and they were taken down and stored away. Now, however, at the suggestion and direction of Elliott Woods, superintendent of the capitol, they have been restored in color and distinctness and reframed by Mr. W. H. Truckstein, whose work consists in looking after the art treasures of the capitol.

Great Lakes Training Station.
Secretary Moody has received the report of the board appointed by congress to examine and report upon a suitable site for a training station on the great lakes. The board suggests a site on the shore of the southern half of Lake Michigan, about twenty-five miles above the forty-second degree of latitude. The site includes the city of Muskegon on the Michigan side and Milwaukee on the Wisconsin side. Secretary Moody will submit the report to congress, with the recommendation that \$250,000 be appropriated for purchasing the property and for the preliminary work on the establishment of the station.

Social Season Assured.
The assembling of congress three weeks in advance of the usual date assures a social season that is much longer than usual. The precedent established last year of beginning the state dinners before Christmas will probably be followed this winter, but there will be no formal entertaining before the regular opening of congress. Mrs. Roosevelt will doubtless receive her friends from time to time in the same hospitable fashion that has marked her entire residence in the White House, but the great state crushes begin with the New Year's reception.

After the Mosquito.
A mosquito study is to be conducted in a wider field than has heretofore been the case with the scientists of the marine hospital service, Surgeon General Wyman of that branch of the government having sent circulars to all the medical officers of the service and to the quarantine officers to forward to the headquarters in Washington specimens of the various branches of the culex family. Frank envelopes have accompanied the circulars, and the insects will be given free transportation through the United States mails.

New White House Stables.
At the coming session of congress an effort will be made to obtain authority for the removal of the president's stables from their present location on the president's park, directly south of the state department building, and the erection of a new building for the purpose in a more suitable location. Colonel Symons in his last annual report makes an earnest recommendation for an appropriation of \$60,000 "for building a stable on a location in the president's park to be selected by the president, to the south of the present stable, for the use of the president, the executive office and the office of public buildings and grounds."

The Union Station.
At a conference between the District commissioners and representatives of the Baltimore and Ohio road on questions relating to the construction of the \$15,000,000 Union station in Washington one of the attorneys for the railroad declared that it was the intention of the Pennsylvania and Baltimore and Ohio railroad authorities to have the new station ready for business March 4, 1905, and in operation before the inauguration of the next president, although not completed.

Colorado Land Withdrawn.
The commissioner of the general land office has withdrawn 360,000 acres of land in Colorado, to be added to the San Isabel forest reserve. The land is in the Gunnison, Leadville, Pueblo and Del Norte land districts.

Associate Justice for New Mexico.
The president will, it is said, appoint William R. Pope as associate justice of the supreme court of New Mexico. Mr. Pope was counsel for the government in the private land claims and in Philippine land cases.

GREAT APPLE TREES.
Sycamore, Ill., Oct. 28.—All previous records for the quantity of apples gathered from one tree is broken this year in this vicinity by a tree on the place of Mrs. R. S. Davis, in the city of Sycamore.

The apple is the late fall "rambo." The tree is very large, and every other year bears from seven to ten barrels. This is the off year, and the tree is not supposed to bear, but forty-eight bushels by actual measurement have been gathered from it, and the tops of several limbs are now red with the fruit.
Several limbs have been broken from the heavy weight of the apples upon them.

IMPROVEMENTS APPROVED.
W. B. Thomas, state foreman of the construction department of the Central Telephone company, has been in the city the past few days arranging to build another circuit to Springfield, Waverly and Carrollton. These will be through lines to be

constructed of copper wire and with metallic circuit. The company already has two circuits to these points, but the heavy increases in business have taxed these wires to the utmost and new lines are needed to relieve the congestion. While here Mr. Thomas also approved estimates for 8,000 feet of cable, which is needed badly in the city and this improvement will be forthcoming in the near future. Estimates have already been improved for a new switch board in the offices here and with these contemplated improvements fully installed the Central Union office will undoubtedly be well equipped to give a most satisfactory service.

NEED LICENSES

Farmers Cannot Extend Hunting Privileges to Their Guests.

Attorney General Hamlin at the request of A. J. Lovejoy, state game commissioner, has rendered an opinion stating that under the new game law owners of farm land cannot extend the privilege of hunting on their lands to their friends unless the latter have taken out a hunter's license. The county clerks all over the state have been piled with questions regarding this matter and it was the contention of many that under the above circumstances it was not necessary to secure a license.

The provision of the law upon which the question was raised is as follows: "Provided, that nothing in this act contained shall apply to persons hunting on the land of another person by invitation of such land owner."

Mr. Hamlin in his opinion says: "The scope and purview of the act is to regulate the taking of game by citizens of the state and others. It prohibits the taking of such game only at certain seasons of the year and then only by those having licenses, except that the owners of farm land, their children and tenants may hunt on their farm lands without a license."

"The proviso is applied directly and in express language to any person or persons hunting on the land of another by invitation of such land owners, whether in closed or open season, and whether such person has or has not a license to hunt. The proviso is, therefore, totally repugnant to the object and purpose of the act expressed in its title, and as the same is contained in the body of the act."

"I am, therefore, of the opinion that this proviso applies by its terms to the entire act and being totally repugnant to the purview and body of the act, is void and cannot be considered as any part of it."

Owen Dunn, of Benton Ferry, W. Va., writes: "I have had kidney and bladder trouble for years, and it became so bad that I was obliged to get up at least a dozen times a night. I never received any permanent benefit from any medicine until I tried Foley's Kidney Cure. After using two bottles I am cured." Sold by J. A. Obermeyer, City drug store.

FUNERALS.

STRAWN.

The funeral of Wm. Strawn was conducted from Antioch church Wednesday morning at 11 o'clock in the presence of an immense number of people, being one of the largest funerals ever held in this vicinity. The services were very brief and were conducted by Rev. Mr. French, pastor of Antioch church, who was assisted by Rev. Joseph Winterbottom. Appropriate songs were sung by a quartet, consisting of Misses Edith Fell, Georgia Brockman and O. L. Hill and Frank Plouffe. The many and beautiful flowers contributed by innumerable friends were taken in charge of Mrs. Edward Hinrichsen and Mrs. Wm. Hinrichsen. Floral pieces of most beautiful design sent by the members of the Woodman lodge and the Court of Honor lodge and the M. A. F. O. lodge testified to his faithful services as a member with them. The Modern Woodmen lodge, of which there were a large attendance, had charge of the services at the cemetery. It was Mr. Strawn's request that his pall bearers should be his nieces Katie, Ella, Mabel, Lizzie and Carrie Strawn and Mrs. Maude Rife. Interment was in Antioch cemetery.

Among those who attended the funeral from a distance were Mr. and Mrs. Grant Mason, of Marshall, Mo.; Charles Strawn and family, of Lincoln; James Strawn, of Tuscola; Dr. David Strawn, Mr. and Mrs. Clifford Strawn, John Corrington, Mrs. William Woods, Charles Graff and Mr. and Mrs. R. A. Gates.

DYER.

The funeral of John A. Dyer was conducted from the Union Baptist church near Pisgah Wednesday morning at 11 o'clock. Rev. T. H. Marsh, pastor of the First Baptist church of this city, had charge of the services and he was assisted by Rev. J. E. Curry. The church choir sang appropriate songs. The following were the bearers: A. A. Curry, Arch Hoagland, Riley Spahnower, Allen Spahnower, Harvey Stubblefield and John Vasey. Interment was in the Union cemetery.

THE UNKNOWN BURIED.

The remains of the unknown man killed Monday at the Wabash railroad were buried in the potter's field Wednesday morning at 11 o'clock. Coroner Reynolds was in receipt of a communication from Dr. J. H. Taylor, of Springfield, and the description sent by Dr. Taylor corresponded exactly until the teeth were described and it was plainly seen that this was another man. A telegram yesterday evening from the Daily Democrat of Johnstown, Pa., made several inquiries about the man which were answered and developments may come later.

METHODIST ELDERS.

Apportion Funds at Session Held in Springfield—Plan for big Convention.

The annual meeting of the presiding elders of the Illinois conference was brought to a close in Springfield Wednesday afternoon when the committee on preachers' aid and conference claims had completed its routine business. A number of matters of importance to the Methodist church came up during the session of the church leaders.

One of the most important things which came up was the arrangement for a mammoth state convention of the missionary societies of the Methodist church. This subject was brought up after the address of Dr. Oldham, secretary at large of the field board of missions of the church. Committees will be appointed by the different conferences of the state to make the final arrangements. The meeting will probably be held in Bloomington in March. The following committee was appointed from this conference: Revs. C. B. Taylor, of the Bloomington district; W. H. Wilder, of the Champaign district; Horace Reed, of the Decatur district, and A. C. Byerly, of the Springfield district.

The bulk of the routine business of the session was transacted at the meeting yesterday afternoon, when \$47,500 was apportioned among the different benevolent and missionary societies of the conference, exclusive of the Women's Home and Foreign Missionary societies. For education, domestic missions and conference claimants, twenty per cent was allowed; for church extension and freedmen's aid ten per cent was allowed, and for the Bible society five per cent was allowed. For the support of a chair of Bible study and religion in the Wesleyan university at Bloomington, \$1,500, interest on capital invested, was allowed.

For the support of bishops one and one-fourth per cent was assessed on the salaries of preachers, including house rent. The amount apportioned this year is much greater than that of last year. Last year the amount was \$40,000, \$7,500 less than this year. The morning was spent in the distributing of about \$2,000 for the benefit of domestic missions and churches.

The ministerial and lay delegates from Illinois conference to the general conference to be held in Los Angeles beginning May 4 next, met Wednesday morning in the parlors of the First M. E. church and made some arrangements for their representation there. Committees on the various parts of the work were appointed, one layman and one minister being appointed on each committee. Rev. W. H. Wilder, D. D., presiding elder of the Champaign district, is the chairman of the delegation, and William H. Anderson, president of the Illinois Anti-Saloon league, is secretary. The delegation will hold another meeting at the time of the meeting of the state missionary societies at Bloomington and there declare what will be their final stand in several important questions which will come before the general conference.

Among the most important of these questions will be the considering of the time limit clause. This clause does away with the old rule that permitted the minister to remain at one place only five years. The matter will be reconsidered in May and a limit may be again established. Another question that will probably come up will be the considering of the amusement clause in the church rules. This clause puts a ban on certain amusements such as dancing, card playing, etc. These specified amusements may be stricken out and the matter left to the discretion of the members. Particular phases in the temperance question will also be considered.

The following is the distribution of committees:

Episcopacy—Rev. W. H. Wilder, Bloomington; T. W. Dwire, Quincy.
Itinerancy—Rev. W. F. Beadles, Quincy, and Joseph R. Harker, Jacksonville.
Boundaries—Rev. G. E. Scrimger, Jacksonville, and G. W. Miller, Paris.

Other committees did not meet. The railroad committee is not meeting because of the absence of its chairman, Theodore Rogers, whose wife is very low at her home in Downer's Grove.

A SURPRISE PARTY.

The friends of W. O. Coffman gave him a pleasant surprise party at his residence, No. 513 Pine street, last evening on the occasion of his 46th birthday. A large number was present to add to the merriment of the evening. Mr. Coffman was the recipient of a number of elegant presents. Games and social chat were indulged in. Suitable refreshments were served.

GEN. CLARK RESIGNS.

Press of Business Necessitated the Action—Col. Culver Chosen for Vacancy.

Governor Yates has received the resignation of Gen. Horace S. Clark, of Mattoon, as commander of the second brigade, Illinois National Guard, with rank of brigadier general. General Clark resigns because his business interests will not permit him to serve longer. He was appointed commander of the second brigade by Governor Tanner June 22, 1899.

According to the provisions of the new military code, which was adopted by the legislature of Illinois at the last session, no person can be appointed a general officer of the line unless he be serving at the time of his appointment as a line officer in the Illinois National Guard above the rank of major and shall have previously served as an officer of the Illinois National Guard for not less than seven years. The new code, therefore, narrowed the choice of General Clark's successor down to two officers, Col. James S. Culver, of Springfield, commander of the Fifth Infantry, and Lieut. Col. Frank P. Wells, of Decatur.

Colonel Culver has been appointed to fill the vacancy. His promotion leaves a vacancy at the head of the Fifth regiment which will be filled by the line officers of the Fourth and Fifth infantries at a regularly called election. Lieutenant Colonel Wells, of Decatur, is senior officer and as such stands the better show for the place.

THE MAN FROM MISSOURI.

In a few days Tim Murphy will be here again to interest and delight play-goers with his quaint characterizations and humorous concerts. Murphy is an odd genius and stands alone in the delineation of those American characters which seem to have no other illustrator since John T. Raymond, John E. Owen and Sol Smith Russell have passed from the stage. This time he has a play which is a pronounced success and is called "The Man From Missouri." It was written for Mr. Murphy by two of the best known writers in America, the prolific adaptor of plays, E. E. Rose, and the funny man who created Dinkelspiel George V. Hobart. These two men have put their best efforts on "The Man From Missouri," and the result is a happy rollicking comedy for Mr. Murphy. He has staged the play charmingly and has a large company of the best obtainable players—Friday, Oct. 30. Prices \$2, \$1.50, \$1, 75c and 25c.

Y. M. C. A. NOTES.

J. B. Williamson will lead the Men's meeting Sunday afternoon. The Debating club has been postponed one week. There was a good increase of new students into the evening educational classes Monday and Tuesday nights and it is not too late to join, in fact some will no doubt be joining even after Jan. 1. The social Friday will only be for the seniors and their friends.

Chicago's building permits for 1902 aggregated \$48,000,000 and its whole-sale trade was \$173,000,000.

There are in the United States treasury cash and bonds to the amount, in round figures, of \$1,080,000,000.

The proportional increase in the population of the cities was less during the past ten years than previously.

Mexico is buying abroad about \$75,000,000 worth of gold a year and selling abroad over \$195,000,000 worth.

Scotland not only leads in pure bred cattle, but by daily quotations on the London market leads on prime beef likewise.

One of the most prominent of oil magnates in Los Angeles is a woman, who is said to control about half of the whole product.

At an industrial school in Liverpool where 200 children were bathed in the same water several cases of pneumonia have occurred.

The birth rate per thousand married women under forty-five years of age in Australia for the year 1901 was 239. In 1891 it was 276.

According to the Massachusetts bureau of statistics there are 3,459 lawyers in that state, 5,407 physicians and surgeons and 3,737 clergymen.

Manila has a total population of something like 300,000, about 10,000 being American and European born. The American population is estimated at about 6,000.

Philadelphia now leads the world in the number of Christian Endeavor mission study classes. It has fifty-six, twenty of which have been organized in the past year.

The outward appearance of many parts of London is changing very rapidly, and there are schemes for rapid changes in the future with a view of overcoming the difficulties of street traffic.

The English post office gives 20 per cent better speed in delivering parcels than the private carriers and at a cost of 6 cents for one pound, 8 cents for two pounds and 24 cents for eleven pounds.

Every man, woman and child in the United States took, on an average, sixty-three rides on the street cars last year, according to a recent report of the census bureau. That was thirty-one rides more than they had taken in 1890.

Professor Pfleger of the University of Bonn maintains that one-third of all the deaths registered in Munich are due to heart disease, brought on by the immoderate use of beer, and that tobacco also claims a large percentage of the victims.

An anonymous donor has offered to provide boots for every shoeless child in Sunderland. Each pair is to bear a stamp notifying that they are the property of the mayor and that any parent attempting to sell or any pawnbroker accepting them in pledge will be prosecuted.

The number of medical students in the United States for the last college year was 27,615. Of this number 24,930 were at the regular schools, 1,498 at the homeopathic, 848 at the eclectic and 339 at the physio-medical and non-descript schools. Germany, with more than two-thirds the population of the United States, has less than a third as many students of medicine.

"When a man sneezes heartily he may know himself to be healthy. No person in poor health ever sneezes," says the eminent doctor Sir Jonathan Hutchinson. This statement will be challenged by those familiar with the plague, who know that hearty sneezing is its first symptom. Every one knows that a series of sneezes comes in the first stage of catching cold and that the hay fever victim sneezes to his great discomfort.

A student of music of the aborigines, Mr. Farwell, states that the Indians have innumerable songs which conform to a definite melodic system. Many persons have been led to believe that Indian music consists wholly of drums, whoops and yells, but in the face of twenty years' serious study of the matter and thousands of phonograph records this belief is fast disappearing. These melodies are all indissolubly linked to legends, myths, ceremonials or religious rituals of the greatest poetic and dramatic beauty.

Professor Schneider of the University of California, speaking in Popular Science Monthly of the methods he has perfected for supplying cultures of nitrifying bacteria for the roots of plants of the bean family, says: "The successful outcome of the research will result in inestimable value to farmers. The modified microbe soil fertilizer will serve essentially as a living fertilizer. It will do away with the use of the well-known guano, manure and other chemical fertilizers. It will do away with the need of crop rotation. It is hoped that the increase in crop yield resulting from the use of the microbe soil fertilizer will amount to from 5 per cent to even 50 per cent, depending primarily upon the condition of the soil."

WOMAN AND FASHION

Walking Costume.

The smart walking costume illustrated is of covert cloth with strapped seams on coat and skirt and rows of

SMART COVERT CLOTH COSTUME.

stitching around the foot of the latter. The sleeves and cuffs are also strapped, and two "pattes," as the French tailors call them, fasten the front.—New York Commercial Advertiser.

A Child's Frock.

A pretty frock for a child is made of white pique embroidered. It is to be worn with a gullepe and is finished around the top with a deep shoulder ruffle embroidered around the edge with a little cluster of flowers at intervals. There are several rows of drawn work around the top of the ruffle outlining the neck. The sleeves are a little different from those usually seen, being long and full, then doubled in at the lower edge and finished underneath with a band at the elbow, the sleeve falling around the arm in a big deep puff. Around the upper part of the sleeve is an embroidered ruffle like that around the neck, this finished at the top, several inches below the shoulder, with a band of drawn work. The upper part of the frock is gathered full. There is, a belt of the material, and below the skirt it is ironed into plaits.

Black Visiting Costume.

An attractive black visiting costume is built of fine plain and perforated satin faced cloth. It has a circular skirt with a yoke of perforated embroidery. The peloric is narrow over the shoulders, the lower edge reaching half way to the elbows. In the front it falls in two loose points over the bust, and in the back it continues in a single deep point to the waist line, where it is attached to the belt with large passementerie ornaments. The sleeves are quite large and are gathered into big ruffled cuffs edged with velvet. They are entirely of the perforated cloth and are slashed up the inside of the arm to show a panel of black chuney lace. There is a choker of the velvet.

Cable Shirt Waist.

The shirt waist styles are not vastly different from the things we have worn all summer, says New York Mail and Express. Striped and checked fabrics and the style of goods known as vestings will be much worn. A chic waist is the white flannel one here illustrated.

WHITE FLANNEL WITH ORIENTAL BANDS.
It gains distinction by two bands of oriental trimming down the front. Another good idea for a flannel shirt waist is also given. This has a double plait down the front, with corresponding plaits each side, those at the side coming over the yoke with rather a smart effect. The cuffs are finished in similar fashion.

Many Uses For Lace.

Lace, lace, lace, enough for one to become entangled in its meshes never to be extricated! It is used for trimming everything; buttons are also used for trimming; twine lace is also used for trimming coats; haircloth is set in walking skirts as a trimming very much like the hand embroidered effects are considered better than ever.

MODES OF THE MOMENT.

A new silk material is called iron crape and resembles crepe de chine. It is said to wear well and to wash perfectly.

Spangled gowns are prominent in the shops. They appear in all colors, and some of them are so closely spangled as to resemble fish scales.

The latest belt, called rather unimaginatively the Gibson girdle, is wide in the back and tapers slightly to the front, where it is fastened with two straps and silver or gun metal harness buckles.

An ever useful separate waist is one made of alternate strips of ribbon and lace. A pretty fashion is that of wearing with one of these waists in white ribbon and lace a pale colored silk corset cover trimmed with lace and ribbon roses.

Buttons made of semiprecious stones such as turquoise, beryllins, olivines and garnets are meant to trim simple silk blouses. As many as eighteen of these are used on a blouse, a dozen in pairs down the front and three in a group on each side or used on the sleeves.—New York Post.

WHAT IS RE-GO?

Re-Go Tonic Laxative Syrup is a preparation originally put up for physicians' use, and it is still largely prescribed by the best practitioners. Its wonderful cures of Constipation and all attendant evils, such as Nervous Dyspepsia, Sick Headache, Biliousness and Indigestion, have led the manufacturers to believe that a great service would be rendered to their fellow men by offering to the public this famous medicine in convenient form. They have such faith in the merits of the medicine that they offer a trial bottle free to any one who will cut on this notice, and present it to Lee E. Allcott, druggist.

GERMAN JOTTINGS.

Two German Alpinists climbing near Innsbruck have died suddenly owing to the exertion affecting weak hearts.

A Berlin woman's club of which Frau Cauer is the leader has a membership of 15,000, all working women.

German coal is gaining a hold in the French markets, and the French state railways have ordered 8,000 tons at \$4.60 a ton.

Lepais university has conferred the doctor's degree on a deaf and dumb student for a treatise on an agricultural subject.

A German mathematician estimates that the man who lives to be seventy years old consumes \$10,000 worth of food in his life.

For balloting under a false name during an election in Brunswick a German workman has been sentenced to three months' imprisonment.

In a suburb of Berlin the other day a young woman was stung to death by wasps. The tragedy occurred in a cemetery, where she was visiting the grave of her lover.

Quite Comfortable

"Liquid comfort" is not the only good. There's solid satisfaction—real, lasting benefit in

"IDEAL" COAL

The excellence of this fuel is proved by the large number of coal users who would rather have "Ideal" than any other.

Best way to understand this is to send us an order—for a bushel at 12 cents, or a ton at \$3.00. "The proof of the pudding" is the way the pudding's cooked. "Ideal" coal proves the pudding—every time. Makes cook cheerful. Costs but little.

Wood fires will be acceptable during these damp, chilly evenings and mornings.

THE NEW ROAD

Many Men and Teams are at Work—Steam Shovel Comes Today.

Work was commenced on the Jacksonville and Concord railway yesterday. Although not all of the men, teams and equipment for the work have arrived yet, the force is large. At least 150 teams are located at various points along the right of way and there are more than enough men to handle them. There is one camp on the Cowdin farm, another about a mile north of Jacksonville and a third in between these two. Tents and temporary buildings have been erected, for the contractors board their men.

R. B. Dear, of the firm of Winston Bros. & Dear, the general contractors said last night that the steam shovel and apparatus would be here this morning and work would commence at once on the cut which will be made commencing on North Main street near Mauvaisterre creek. Thirty-three cars are necessary to transport the steam shovel, track and other apparatus used in connection with it.

More men and teams will arrive between now and Saturday, some local labor is to be employed, and next week will see great activity all along the line. Unless unfavorable conditions arise trains will be running over the track early in 1904.

YOUTH AND AGE.

Maitre Labori, the noted French advocate who defended the Humberts, is not remarkable in Paris so much for the eloquence as for the neatness and the polish of his speeches.

An American journalist heard Labori in court one day. He says the advocate's address was full of grace, wit and tenderness. He quotes a passage relating to old age wherein Labori, with a smile, said:

"Old age—we shall none of us quite understand that until we have attained to it—for no one of us here is old. But the other day I visited my uncle, a very aged man.

"What is it like, uncle, I said, 'to be old?'"

"And my uncle answered:

"It is like this: When one is young one's polite attentions to women are taken for declarations of love, but when one is old one's declarations of love are taken for polite attentions."

Renewing Oilcloth.

When oilcloth has been down for a few months and is losing the shiny surface it can be renewed easily, and it will last twice as long. Melt a little ordinary glue in a pint of water, letting it stand on the top of the oven till dissolved. Wash the oilcloth thoroughly and let it dry. Then at night when the traffic of the day is over go over the whole thing carefully with a flannel dipped in the glue water. Choose a dry day for it, and by morning the glue will be hard and will have put a fine gloss, as good as new, on your floor.

A Novel Pillow Cover.

A very popular variety of pillow is covered with squares cut from English and French flowered cretonne. Big bunches of flowers are printed in the center of each square, and the corners are gathered in a rousing shape, with a large cretonne covered button over the gathering. Denim and silk pillows are treated in the same way.

AT FRANKLIN

Second Day of the Farmers' Institute—Officers Elected.

The second day's sessions of the Morgan County Farmers' institute at Franklin were well attended Wednesday. In the afternoon the hall was crowded to overflowing. Charles A. Rowe made an address on corn culture at the morning session and an extended discussion followed. At the afternoon session A. P. Grout talked on "Type and Quality in Livestock" and Prof. F. H. Hall made a talk on "Dairying." The farmers present were very much interested in the suggestions and facts given.

The election of officers for the ensuing year resulted as follows: President, G. C. Gibson, Pisgah; secretary, Edward Scott, Franklin; treasurer, H. G. Keplinger, Franklin.

Corn prizes were awarded as follows: Twenty ears white corn, F. M. Short, Franklin; second prize, M. L. Roberts, Franklin. Twenty ears yellow corn, L. O. Berryman, Franklin; second prize, Louis Roberts, Franklin. In the boys' corn growing contest the first prize was awarded to Elmer Beuchamp, of Meredosia, and the second to Irving Rees, of Franklin.

The institute will be held at Franklin again next year.

HALLOWEEN SPORTS.

Halloween will probably be observed in Jacksonville with the usual number of social affairs and the regular program of sports and pranks. In conversation yesterday Mayor Davis said: "I am in hopes that those who observe halloween this year will be reasonable in their actions and will not attempt to destroy property. There is no objection to children enjoying the evening in a merry but proper way, but there must be no riotousness or destruction of property. There will be a large number of extra policemen serving that night to see to it that everything is peaceable and quiet."

DIED SUDDENLY

End of Life was Unexpected for J. A. Eador of Franklin.

J. A. Eador died very suddenly Tuesday evening about 10 o'clock at his home in Franklin. With his wife he had been out the early part of the evening when they attended some exercises at the town hall. Although Mr. Eador had been in poor health during the past summer, yet during the last three weeks he had been feeling much better and often spoke of his improvement. He retired Tuesday evening about 9 o'clock. His wife retired a few minutes later and a little after 9:30 she was awakened by the heavy breathing of her husband. She called to him and getting no reply immediately struck a light when she found him suffering great agony. Dr. Perkins was sent for at once and arrived at the house a few minutes later, but Mr. Eador was dead, having passed away without gaining consciousness. Coroner Reynolds was notified and went to Franklin on the early Wednesday morning train, where he empaneled a jury, consisting of Charles Luther, Ed Wright, J. M. Hart, George Tribble, C. H. Wright and Wm. Hart, who after hearing the testimony of Mrs. Eador and Dr. Perkins returned a verdict of death due to cerebral hemorrhage.

The deceased was born near Waverly, December, 1849, and all of his life was spent in the immediate vicinity of Franklin. He was married thirty-three years ago to Miss Martha Scott, of Franklin, who together with three sisters survive him.

Mr. Eador was a member in good standing in the Court of Honor and in the Macabees lodge. He was a man thoroughly reliable in all things and in his dealings with his fellowmen he was always found a most conscientious man.

The funeral will be conducted from the Methodist church at Franklin Thursday afternoon at 1:30 o'clock. Rev. M. L. Browning will have charge of the services. Interment will be in Franklin cemetery.

REPRIVE FOR MCCREA.

Governor Yates yesterday granted a reprieve for twenty-eight days to James McCrea, who was convicted of the murder of Police Officer Murphy in Peoria last June and sentenced to be hanged next Friday. A reprieve is granted until Nov. 27. The petition filed in support of the request for a reprieve sets out at some length that new witnesses have been found who will give testimony in favor of McCrea.

McCrea is colored. On the night of the murder of Police Officer Murphy a determined effort was made to lynch McCrea. The attempt would probably have been successful but for the action of the chief of police of Peoria in ordering out the entire fire department and having it make a run through the crowded streets in front of the jail in order to divert attention.

A pleasant family reunion was held at the home of Mrs. Felix Farrell Wednesday on the anniversary of her birthday. There were present Mr. and Mrs. S. D. Epler and Mr. and Mrs. J. T. Epler, of Pleasant Plains; Mr. and Mrs. J. W. Beggs, of Ashland; Mrs. Sarah McCoy, of Wichita, Kan.; Mrs. Jennie Gilliam, of Kansas City, and Miss Sarah Weir, of Jacksonville, all brothers and sisters of Mrs. Farrell, and it is needless to say that their meeting together was of a most pleasant nature and the day will ever be one of happy remembrance.

HATCH SELLING 60 DOSES OF DR. HOWARD'S DYSPESIA FOR 25c.

Don't let this chance pass. To day is worth two to morrows. When this notice was sent to the Journal Hatch, the leading druggist of Jacksonville, had just received a fresh stock of Dr. Howard's specific for the cure of constipation and dyspepsia, the regular size of 60 doses, which to get new users for the remedy, was to be sold at 25c. This stock will not last long, and you should not delay taking advantage of this offer. Nearly nine-tenths of our people suffer with indigestion, constipation, headaches or liver troubles, diseases that Dr. Howard's specific never fails to radically cure.

Dr. Howard's specific for the cure of constipation and dyspepsia is not a "cure all." It is simply a specific for the cure of indigestion, headaches, constipation and liver troubles. It comes in the form of tiny granules; 60 in a vial, is pleasant any easy to take, and it is sold by them with the understanding that if it does not give perfect satisfaction, it will cost you absolutely nothing.

If you feel dull and out-of-sorts, the chances are that you are constipated or your stomach is out of order. Here is a chance to get well for a trifling sum without having to pay a cent if the medicine does not cure you.

Come in and try on the coat for yourself and see how much more justice it does you than the ordinary ready-made kind. It will help you look your best--and a prosperous air is half the battle, these days.

You can pay twice as much to a custom tailor, but you cannot get better value. Suits and overcoats,
